Dear Lorraine Johnson

Thank you for informing us of your product's name change.

I am pleased to reaffirm that your product triple7 Bio Concentrate (previously known as EFS triple7 Colloidal Concentrate and OSCA listed as of 10 September 2013) meets the requirements of the Australian National Plan Oil Spill Control Agent (OSCA) Register and continues to be listed as both a Surface Cleaning Agent (SCA) and as an Oil Herding Agent (OHA).

The OSCA Register listing is on the AMSA National Plan for Maritime Environmental Emergencies website at: <http://www.amsa.gov.au/environment/>

We will replace the SDS and label with those you have provided, and publish other material from you, including a hyperlink off the OSCA List page to your product website.

Yours sincerely

Jamie Storrie
