More About the Envirofluid Range

Envirofluid is leading the way in lowering the cost of cleaning and maintenance in the Resources Industry. Envirofluid's extensive range of maintenance, cleaning and process chemicals cover a wide range of Mining, Oil and Gas applications including:

- Environmentally compliant washdown, cleaning and degreasing
- Oily Water Separation
- Non-toxic oil spill cleanup
- Non-dangerous, low acid descaling
- Worksafe recyclable parts cleaning
- Enhanced oil recovery
- Equipment maintenance
- Dust suppression

Envirofluid’s worksafe formulas drive costs down by reducing health and safety risks, simplifying work processes whilst enabling more cost effective environmental compliance.

Safer, More Cost Effective Maintenance & Cleaning

Envirofluid's three flagship brands offer a wide range of ‘best-in-class’ chemical products for the Resources Industry including solvents, degreasers, EOR surfactants, scale removers, parts cleaning products and more. To view this extensive range please visit envirofluid.com.
**SCALE REMOVAL**

- Worksafe, Biodegradable, Naturally Derived Formulations
- Low Corrosion Formula Protects Sensitive Surfaces & Parts
- Dispose of Easily, No Waste Treatment Required.
- Ultra-Safe, Non-Haz, Non-DG, Non-Flammable

**Triple7 EnviroScale Plus**

LOW CORROSION WORKSAFE SCALE REMOVER

Order code: AAESCPL

**SPECIALTY RESOURCE SOLUTIONS**

- Environmentally Compliant, Safe for Use Near Waterways
- Derived from Renewable Resources
- Leading Edge Surfactant Technology
- Ultra-Safe, Non-Haz, Non-DG, Non-Flammable

**Triple7 Dust Suppression Plus**

BIO BASED DUST CONTROL AGENT

Order code: AADSP

**Triple7 E.O.R.**

ENHANCED OIL RECOVERY COLLOIDAL SURFACTANT

Order code: AAEOR
CLEANING & EQUIPMENT

WASHDOWN

- **Purasolve PWD**
  - NON EVAPORATIVE CRUDE OIL SOLVENT
  - Order code: ESPWD

- **ActiveEco ActiResist**
  - HEAVY DUTY INDUSTRIAL METAL CLEANER & DEGREASER
  - Order code: AERST

- **Triple7 Heavy Duty Plus**
  - HIGH PERFORMANCE CLEANER & DEGREASER
  - Order code: ??

HARBOURS & OFFSHORE

OIL PRODUCTION

- **Triple7 Bio Concentrate**
  - OIL SPILL CONTROL AGENT & OIL SPILL SURFACE CLEANING AGENT
  - Order code: AABCN

- **Purasolve PWD**
  - NON EVAPORATIVE CRUDE OIL SOLVENT
  - Order code: ESPWD

Highly Powerful Cleaning Action, Reduced Manual Labour Requirements
Low Odour, Low VOC, Low Fumes
Non-Corrosive, Protects Cleaning Surfaces
Worksafte Formulations

- **Triple7 Heavy Duty Plus**
- **ActiveEco ActiResist**
- **Purasolve PWD**

Non-Toxic, No Suspected Carcinogens
Derived From Renewable Resources
Biodegradable, Safe for Use Near Sensitive Waterways
Ultra-Safe, Non-Haz, Non-DG, Non-Flammable

Worksafe Formulations
**WATER TREATMENT & ODOUR CONTROL**

- **Triple7 AquaSmart**
  - Chlorine Free Surface Sanitiser & Drinking Water Purifier
  - Order code: SBAEAS

- **Triple7 Odour Control**
  - Odour Neutralising Cleaner & Waste System Treatment
  - Order code: AAOC

**WORKSHOPS & MAINTENANCE**

- **Purasolve Parts Cleaner SK**
  - Worksafe Parts Washer Fluid
  - Order code: ESPSK

- **Purasolve Parts Washers**
  - Recycling Parts Washers

**Features**

- Worksafe, Eco-Friendly Formulations
- Effective Substitute for Toxic & Dangerous Products
- Readily Biodegradable, Improves Water Quality
- Ultra-Safe, Non-Haz, Non-DG, Non-Flammable

- Low VOC, Low Fumes, Slow Evaporation
- Recycle Solvent for up to 18 Months
- Replaces Benzene, MEK & Other Dangerous Solvents
- Ultra-Safe, Non-Haz, Non-DG, Non-Flammable
Equipment Washdown - Case Study
Envirofluid helped a major Australian mining company ensure that workers at its iron ore transportation hub avoided potential health risks from cleaning and degreasing chemicals by adopting safer, high performance alternatives. In the process the company saved $250,000 per year on water use and recycling costs through increased oily water separator efficiency. “Any solution we adopt needs to be safe, bring about cost saving and improve operational efficiency. Triple7 Heavy Duty is performing on all fronts” says Maintenance Director.

Maintenance Parts Cleaning - Case Study
Envirofluid significantly improved health, safety and environmental outcomes for Fortescue Metals Group by replacing high risk sodium hydroxide based cleaning fluid with Purasolve Parts Cleaner. The change provided highly effective and safer cleaning of heavily greased machinery and vehicle parts within their maintenance facility. Combined with a Purasolve recycling parts washer the change also resulted in significant ongoing cost savings for parts cleaning fluid supplies and waste disposal saving $40,000 per annum per parts washer.

Cooling Tower Descaling - Case Study
Envirofluid dramatically reduced the downtime and safety issues associated with cooling tower maintenance of Rio Tinto’s gas turbine generator systems. By replacing dangerous and potentially damaging Hydrochloric Acid with a high performance, low corrosion lime scale remover, Envirofluid enabled Rio Tinto to fully descale their three cooling towers within a 24 hour period. This was achieved without any requirement to dismantle or manually descale any part of the system. The wastewater flush was also safe enough to be used directly as a dust suppressant without further treatment.
